THIS PAGE The wedding cake featured tiers of buttermilk cupcakes decorated with motifs inspired by the lace embroidery on Sasha's dress. † Sasha is a graphic designer and created a signature font and flower emblem for their stationery. Service booklets in white and navy looked suitably nautical † The restaurant felt "more like a home" said Sasha. Hurricane lamps and sailing memorabilia added to the ambience. † Place-cards featuring the couple's signature motif, were pegged to wine glasses. † Simple flowers – white orchids and magnolia leaves - suited the crisp, coastal theme. † Sweet peas featured in Sasha's bouquet and in charming suspended arrangements within the venue. † Sasha chose a dressmaker to create her fashionable, empire-line gown with lace inserts. Nathan's neutral Morrissey suit, was relaxed and elegant.
